

# CORPORATE BUYBACK PROGRAM

- THE MOMENTUM DIFFERENCE

## CORPORATE BUYBACK PROGRAM – THE MOMENTUM DIFFERENCE

As a leading global agency broker servicing a wide variety of institutions, we specialize in the efficient confidential handling of our clients' trading requirements and compliance under Rule 10b-18. Specifically, we offer corporate treasurers the leading share repurchase program designed to maximize value and achieve your objectives without conflict of interest. Overall, as our interests are entirely aligned with your repurchase requirements in both price and quality of execution, Momentum Trading Partners is committed to providing unparalleled service and significant cost savings with minimal market impact.

### A Consistent Top Choice of Our Clients

Over the years we have earned a reputation as the ultra high-touch execution specialists, and that reputation transcends into corporate buybacks. During the course of our business, our execution specialists tend to all securities with care, regardless of their liquidity or volatility.

Our settlements department and technology are without peer. We allocate 100% of our trades on trade date and work hand in hand with Credit Agricole, our clearing agent, to ensure accurate and timely trade confirmations. Additionally, our trading team is well-informed with concern to 10b-18 'safe harbor' rules and guidelines, while our compliance department oversees the entire 10b-18 process.

**Momentum is consistently ranked at the highest tier by our clients over the major well-known bulge bracket broker dealers with respect to response time, sophisticated order execution, and reduced slippage.**

# CORPORATE BUYBACK PROGRAM

- THE MOMENTUM ADVANTAGE

## Unique Advantages of Momentum above others as your Agency only

### Execution Partner:

- Momentum does not engage in proprietary trading and does not 'shop' client orders, greatly minimizing information leakage to market participants.
- We explicitly maintain anonymity from order placement throughout and beyond the execution process to ensure the utmost secrecy for your orders
- Momentum is an *"ultra high-touch"* trading partner with smart, hands-on order management across all market sectors and market capitalizations. We work as your partner, managing your order in accordance with your parameters, goals, and objectives.
- Momentum maintains a deeply experienced and cohesive sales and trading team with an unusually low ratio (less than 2:1) of sales traders to execution traders ensuring great attention to detail.
- We utilize the latest trading technologies with routing capabilities to all points of liquidity, including over 30 relevant dark pools and top tier algorithm access.
- The use of performance measurement benchmarks allows clients to accurately gauge and compare performance as well as the overall costs of execution.
- Momentum employs a top tier Commission Sharing Technology (CSA) offering which allows for a proper and compliant outsource remuneration offering for use at your discretion for external commission fee allocation

For more information about how to enhance your corporate buyback program, or the services offered by Momentum Trading Partners outlined above, please contact Garrett Nenner at 646.826.3262 or via email at [CBP@momentum-trading.com](mailto:CBP@momentum-trading.com).
